

Greetings Valued Young Living Members,

When you opened your first order of Young Living oils did you have expectations and hope for solutions to certain needs. Perhaps, you were on a journey to put into practice all of the wonderful benefits of essential oils that seem to be showcased in today's magazines and books written on the topic. *Were those issues remedied?* Or, did you find that you needed some help and no one came with help. In today's atmosphere of communication methods, it isn't always clear the best way to make that connection.

You may be aware that your account is about to become "inactive", perhaps not. This communication is to reach you before that happens. I want to let you know that we value you and are still here to help you. It's all about YOU and your family's needs! Right now, a \$50 order would preserve your active status. We can help you whether your need is a "chemical free lifestyle" "healthy children" "natural pet care" or perhaps you are exhausted and need restful sleep and lasting energy. MAYBE, your needs are greater than your budget will allow...been there!

Life Changing Testimonial: Tess is a special needs teacher and mother of 2 elementary school daughters. As with most families today, she was totally stressed and exhausted by the end of her work day with little left for her children and husband. She was shackled by the bondage of student loan debt and credit card debt. With Young Living, she found her lifeboat to financial and time freedom. She is an extremely busy mom and wife, but loves to casually share how to live a chemical free lifestyle with her friends, co-workers and church members. **This past year Tess paid off over \$18,000 in debt** by casually sharing with others how she and her family are living happier healthier lives. How? She has a new Gameplan!

We have many stories like this among our oily family members. If you feel stuck in survival mode or simply would like to get your oils for free, contact me for more information. **A simple call or text could be the lifeboat you've been praying for!** I will be happy to send you "Your Gameplan, Build a Life Beyond Survival Mode" by Sarah Harnisch. I am a leader in your upline and I am reaching out to you with this offer. We need to know if you need help.

We would love to be able to serve you on this journey,

Beverly Krupp
